

ENVIRONMENTAL STATEMENT

POLICY

OVERVIEW

Greene Tweed (UK) strives to be a leader in environmental best practices and believes a successful future for our business depends on the sustainability of the environment, communities, and economies in which we operate.

As a responsible environmental conscious organisation, we firmly believe that the protection of the environment is essential to the future successful operation of our business.

We therefore affirm our commitment to minimize the impact our organization has on the environment by demonstrating leadership by integrating environmental considerations into our business model.

SCOPE

Although this policy applies to all business entities and employees, the primary audience for this policy is those responsible for its implementation, namely (UK) management and supervisory local staff.

COMMITMENT FROM GREENE TWEED (UK)

We want our manufacturing facility and production to be part of a sustainable society. Our objectives consist of the following:

- Protect the environment, including preventing pollution, through responsible management.
- Consider the Environmental policy when making future planning and investment decisions.
- Explore renewable energy technology designed to reduce environmental impact.
- Strive to reduce energy consumption and harmful emissions by promoting sustainable solutions.
- Comply with our environmental obligations taking a proactive approach regarding legislation
- Promoting environmental awareness among our employees, suppliers, and contractors
- Promote up-stream recycling efforts wherever practicable.
- Strive toward achieve zero waste to landfill
- Ensuring effective reporting and environmental investigation are completed
- Ensure potential hazards and risks are identified with effective preventive programs implemented
- Promote environmental best practice and continuous improvement for the UK facility.

The policy is readily available by means of notice boards, inductions, internet, and management software packages and reviewed at least annually to reflect changes in legislation and effectiveness.
