

**Greene Tweed is committed to providing market driven, technology leading products to our customer by focusing on the following:**

## **EMPLOYEES**

We recognize that every Greene Tweed employee, regardless of position within the company, impacts our overall quality performance. As such, we will enable a company culture where employees can speak openly and honestly, continuously learn and develop, and accept ownership and accountability for their actions as well as the quality of products and services for our customers. This culture is supported by an understanding of human factors and a commitment to continual improvement.

## **VALUE**

We will delight our customers by providing exceptional products and services and continually enhancing our customers' experience.

## **COMPLIANCE**

We will meet or exceed all customer, regulatory, statutory, internal and industrial requirements through continual improvement of our quality management system.

## **BEST-IN-CLASS OPERATIONS**

We will continually improve our people, products, processes, systems and tools by leveraging a right first time mindset through data driven decision-making.
