## U.S. TSCA Inventory Statement of Compliance

August 12, 2026

Dear: **Greene Tweed Customer**

This document certifies that the ingredients and components used to make the Greene Tweed products we supply are listed on the U.S. Environmental Protection Agency (EPA) Toxic Substances Control Act (TSCA) Chemical Substance Inventory and fully comply with TSCA regulations.

The components of our products fall into one of these categories:

- Listed on the public TSCA Chemical Substance Active List
- Certified to be on the Confidential Business Information (CBI) list of the TSCA Inventory
- Exempt from TSCA Inventory requirements

The Toxic Substances Control Act (TSCA) was updated by the Frank R. Lautenberg Chemical Safety for the 21st Century Act. Greene Tweed confirms that all chemicals used in our operations are on the TSCA active inventory and that the inventory reset did not change the regulatory status of the substances in these products.

We provide this information in good faith. It is accurate as of the date of this letter based on our best knowledge and available information.

Regards,

Greene Tweed Material Compliance
